CONTEMPORARY

Halcyon presents itself in styles that aptly summarize your desire for individuality.

A contemporary style home can be a quiet and comfortable retreat. Fundamentally, simplicity, subtle sophistication, texture and clean lines help to define contemporary style decorating. By focusing on color, space, and shape, contemporary interiors are sleek and fresh. Neutrals, black, and white are the main colors in contemporary style interiors.

FUSION

Halcyon presents an opportunity to deck up your home in Fusion. Fusion style that combines culture, technology, style, shape and even the time! Fusion style offers everything and no rules that limit or horse's bit. Creativity moves freely like the sky is the only limit. For example, it is a common thing to combine modern elements with classic elements. Fusion encapsulates life, soul, art, design and any other cultural or modern aspect in it. The furniture, colors and furnishings are indicative of absolute mix and match.

INDUSTRIAL

Halcyon goes a step further and offers Industrial home designs. Industrial furnishings are minimal and no-nonsense, with strong, clean lines and without a hint of excess. Repurposing is central to this style: wooden crates turned into tables, old lockers used as storage, battered ladders turned into shelving.

If there's a go-to industrial material, it's metal. Tin, steel, iron and aluminum create a clean, cool, functional sensibility and lend just the right touch of sleekness.
