WHY NORTH BANGALORE

North Bangalore has been a popular residential destination both for end-users and investors. Developmental activities in these areas have been phenomenal. The region provides easy connectivity to major areas in the city which is one of the main reasons driving the demand in Hebbal, Yelahanka and adjoining areas.

The selling point is the property price. Projects in North Bangalore come for Rs. 5,000 – 8,000 per sq ft, whereas those in Central Bangalore are nothing short of Rs. 20,000 – 25,000 per sft. This is pulling a lot of overseas buyers into North Bangalore market, who are looking for luxury projects similar to those that they own outside the country. Presence of International Airport and ongoing infrastructure developments have further triggered the realty activities in these areas, making North Bangalore emerge as a promising investment destination.

Since 2011, Hebbal and regions around it has shown multi-fold rise in real estate property appreciation.

To boost the economic activity, coming in North Bangalore region are AEROSPACE ZONE, ITIR PROJECT, GLOBAL FINANCIAL DISTRICT, SPACE CITY, etc.
