BHOGANANDISHWARA TEMPLE

Bhoga Nandeeshwara Temple; originally constructed in 9th century AD by Bana Queen Ratnavali in Dravidian style of architecture is one of the oldest temples of Karnataka. The temple was regularly renovated by five dynasties of Chola, Hoysala, Pallava & Vijayanagara Kings.

This Shiva temple houses 3 temples within viz. Arunachaleswara, Uma Maheshwara & Bhoga Nandeeshwara. The temple also houses a large indoor water pond, called Sringeri Teertha and has rock cut steps on which many lamps are lit by the side of the tank on certain festive days like Deepavali. This pond is believed to be a source of Pinakini River. Inside the temple, certain stone carvings are also depicted.

MUDDENAHALLI MUSEUM

Muddenahalli is the birthplace of Sir M. Visweswaraih, one of India's most accomplished engineers. He is the recipient of "Bharat Ratna"

This memorial of Sir M. Visweswaraih has a vast collection of his writings and photographs. The museum was renovated in view of the 150th Sir M. Visweswaraih Birth ceremony conducted on September 15, 2010.

SKANDAGIRI HILLS

Skandagiri, also known as Kalavara Durga, is an ancient mountain fortress overlooking Nandi Hills, Muddenahalli, and Kanivenarayanapura. The peak is at an altitude of about 1350 meters.

Skandagiri is famous for night trekking. Trekkers start the climb by 2am on full moon nights and reach the peak to witness the sunrise. Skandagiri became famous for "walking above the clouds". This is due to spectacular views above Skandagiri hills, during dawn.

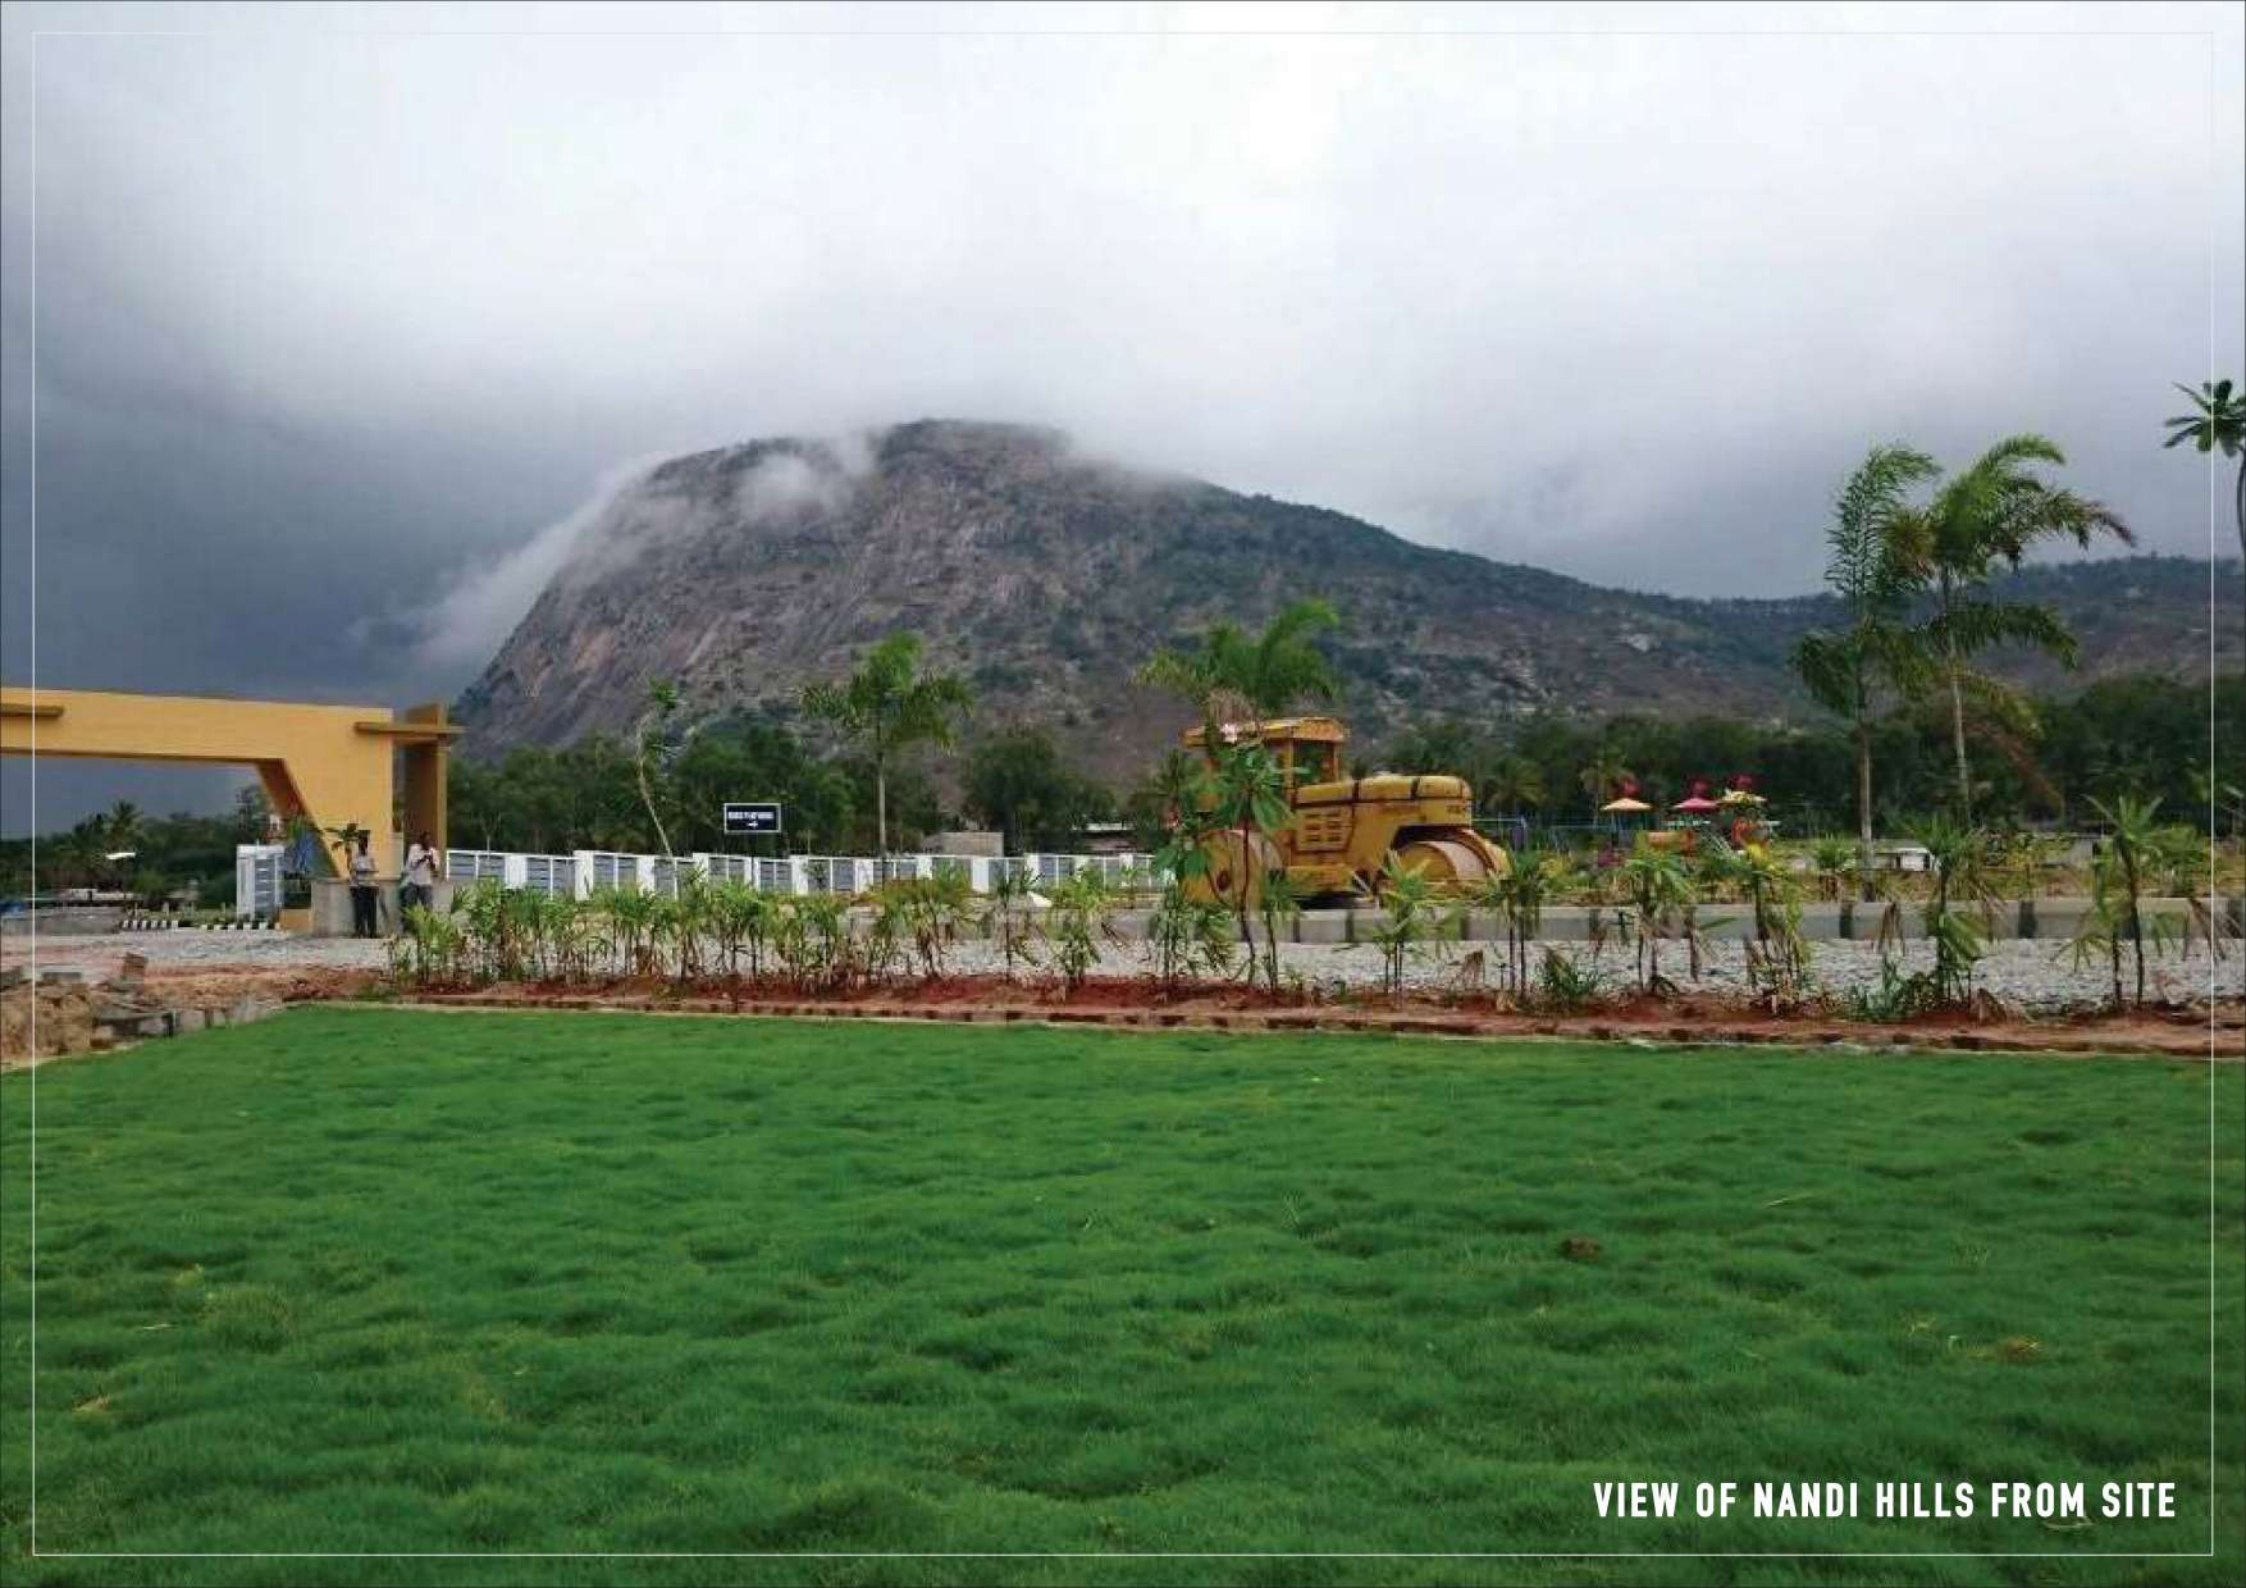

RIVER ARKAVATHI

The Arkavati is a large mountain river originating at Nandi Hills. It is a tributary of the Kaveri, which joins at 34 km south of Kanakapura, called Sangama in Kannada, after flowing through Ramanagara and Kanakapura. The river drains into the Chikkarayappanahalli Lake near Kanivenarayanapura. Kumudavathi and Vrishabhavathi rivers are tributaries to this river.

The river is filtered in the nearby mountain aquifer. The water is fresh and crystal clear. The water is taken from two reservoirs built on the river, the Hesaraghatta, which was built in 1894, and the Tippagondanahalli Reservoir (or T G Halli), which was built in 1933.
