Actual 3D Perspective - Night View

IREO CITY CENTRAL – DAY VIEW

Actual 3D Perspective - Day View

- Seamless connectivity between the levels through 4 cores of elevators and staircases along with escalators and ramps.
- Ceiling height of 6 mts slab to slab (19.7') gives large shop windows for better visibility and sense of volume inside the shop. Extra height may also be used for storage within the shop.
- UG level raised by 3 mts from street level for enhanced brand visibility from a distance.

IREO CITY CENTRAL – FEATURES

Retail mood shot showing covered walkways

- Covered walkways outside shops at all levels.
- Well planned circulation that eliminates dead ends and facilitates shoppers to easily access all shops at each level.
- Ample parking - 700 car parks in 4 levels of basements.
- Provision for AC through copper piping. Space for outdoor units to be provided on terrace at designated spaces.
- Wet points in each outlet.
- Complete power back up for all units and common areas.

IREO CITY CENTRAL – FEATURES

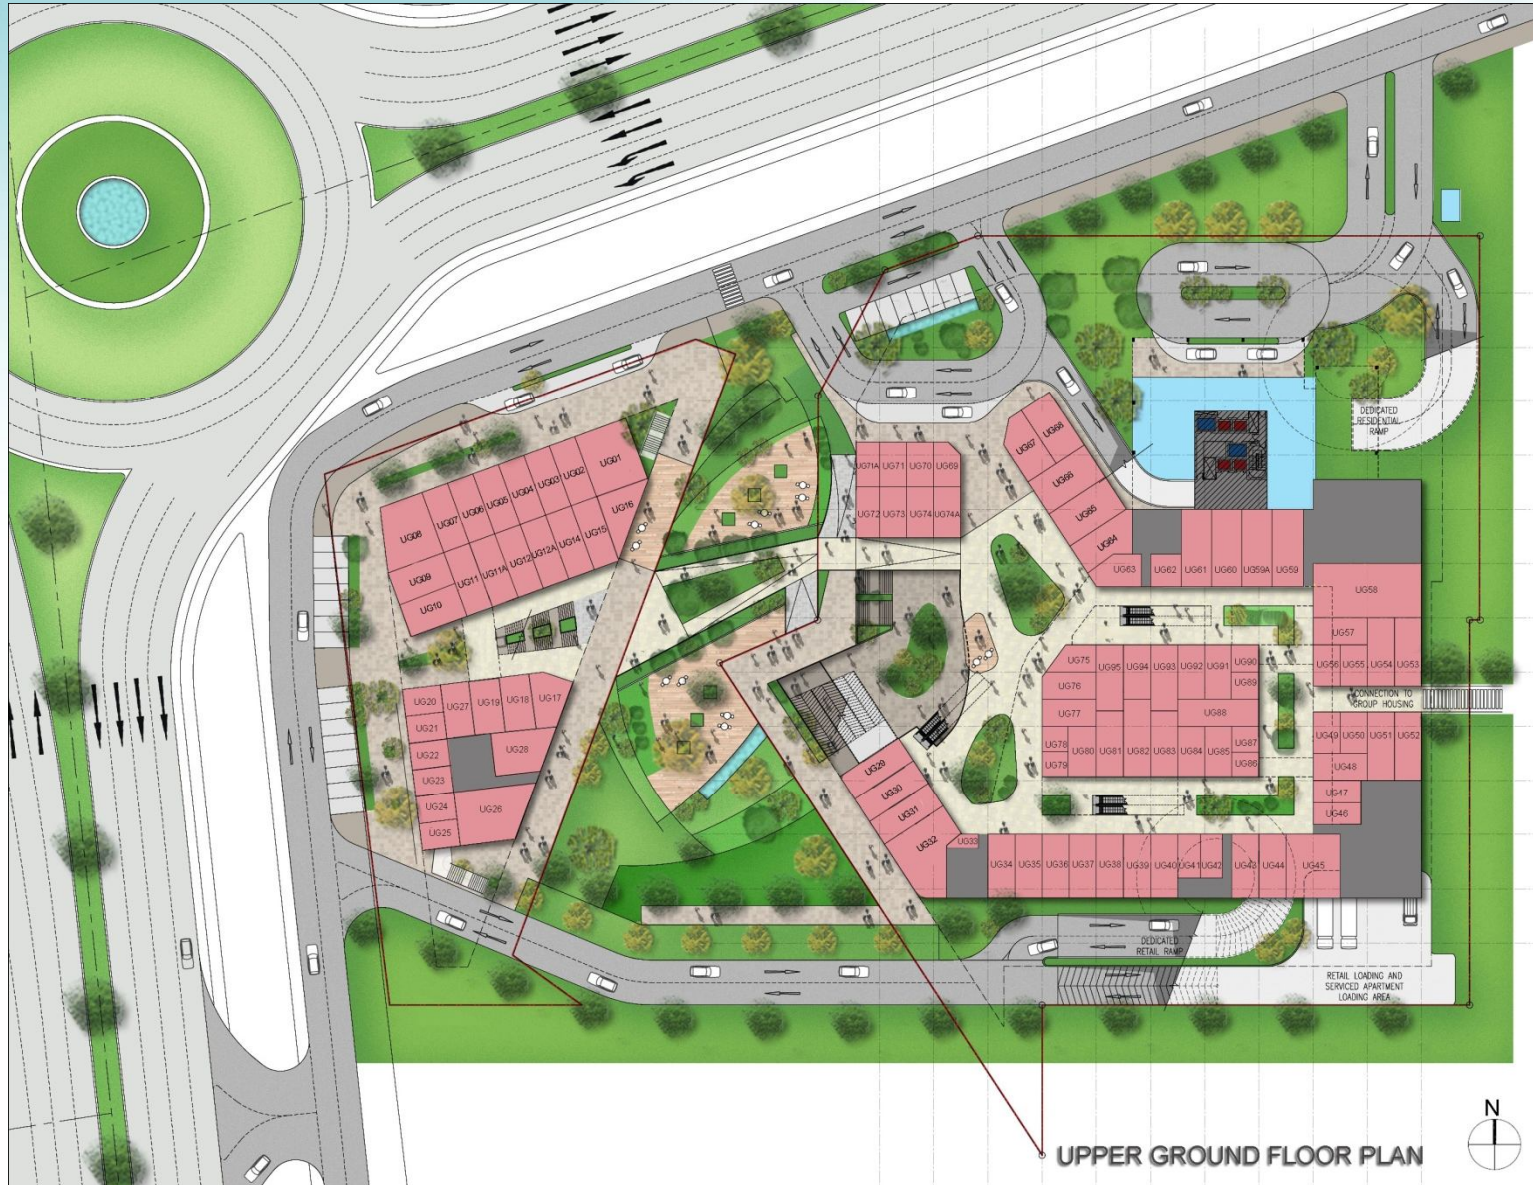

Retail mood shot showing landscaped courtyards, passages

- Views of beautifully landscaped courtyards and piazzas from most parts of the site at all three levels.
- Other operational high street complexes in Gurgaon are priced at a much higher level thus giving room for rapid appreciation when the complex becomes operational.
- Quality of Catchment - the newly developed residential zones around the complex will be amongst the most premium in Gurgaon.
