A destination of desire

Today, Noida has emerged as one of the foremost living and investment destinations not only in the NCR but across India.

A well planned, integrated, modern city that is well connected to Delhi and the NCR through a network of wide roads, national highways and the ultra-modern DND flyover, it offers the best choice for modern living. The under construction Noida-Agra Expressway will further add to the success of the development corporations of Noida.

Then there is a proposed FNG Expressway that will make Noida a highly desirable destination in terms of accessibility even to the farthest regions of the NCR. Other plans on the anvil include construction and maintenance of commercial centres in each sector, amusement parks, Noida Habitat Centre and sports complexes. And with the economy back on its track of growth, institutional and industrial development projects are also in full swing.
