The planned city- Greater Noida

Greater Noida, one of the largest industrial township of Asia, is making rapid multi-directional developments in the terms of infrastructure, residential, institutional, industrial, commercial, transport & other facilities. With upcoming Night Safari & proposed metro station, the city enjoys good regional linkage and connectivity with other important cities of India and has efficient inter and intra city commuting. Surrounded by hundreds of hectares of virgin forest, the area will be developed as an international tourism destination. Truly, it's a perfect location for the perfect moments.

Project Brief

“When we say quality, trust, eco-friendly house we really mean it”.

With adding another feather into its cap, Ekdant Group is proud to present its new landmark project Ekdant Rawal Residency, Greater Noida. As the project is strategically located on main Dadri road which is just 1 min drive from Noida border the distance is not a barrier. In fact you can reach Delhi in minutes driving down the sprawling roads.

With approx 65% open area the project offers you 1/2 bedroom apartments ranging from 600 sq. ft to the 1050 sq. ft. The project is envisioned to provide the highest quality of life to its residents while also encouraging a society that is both sensitive and responsible towards the environment.

While the homes will be equipped with 24x7 power & water back-up, parking, and facilities like an exclusive club with Swimming pool, Kid's Pool, Gym, Basketball Court, Jogging Track, Table Tennis, Children's Play Area are within the complex. The complex will also adopt an elaborate system for rainwater harvesting, geared towards partially reducing the strain so typically faced by the other developments. Also being deployed are various water management plans that would automatically reduce wastage of this valuable resource. Power saving measures like energy-saving light fixtures in common and outdoor areas would also cut down power consumption.

The well planned and uniquely designed homes are sure to instill pride in their owners and go a long way in creating a community that is both close-knit, yet outward looking. With such affordable homes, Ekdant has helped people in realizing their dreams without hurting their pockets. All in all, this project is surely one to look out for.
