Assetz

A photograph of three children climbing a tree in a lush green setting. One child is on the ground, another is on a branch, and a third is higher up. The scene is filled with dense foliage and a grassy area in the foreground.

soul & soil
Return to happiness

A lush green garden scene. In the foreground, a wooden pallet is repurposed as a bench, sitting on a grassy lawn. Behind it, a dense, leafy tree with small green leaves and some yellowish flowers dominates the background. The overall atmosphere is peaceful and natural.

Childhood was a time of simple joys, wholesome experiences, nourishing food and the presence of loved ones around. A time that refuses to leave your memory, one that you try to recreate in even the smallest of things you do. You look for it in the fresh scents of the earth, the lulling sounds of the leaves, the healing touch of the sun and the nourishing bounty of nature. At Soul & Soil, we give the urban heart who yearns for a return to the good things, a close-to-nature and simplistic way of living.

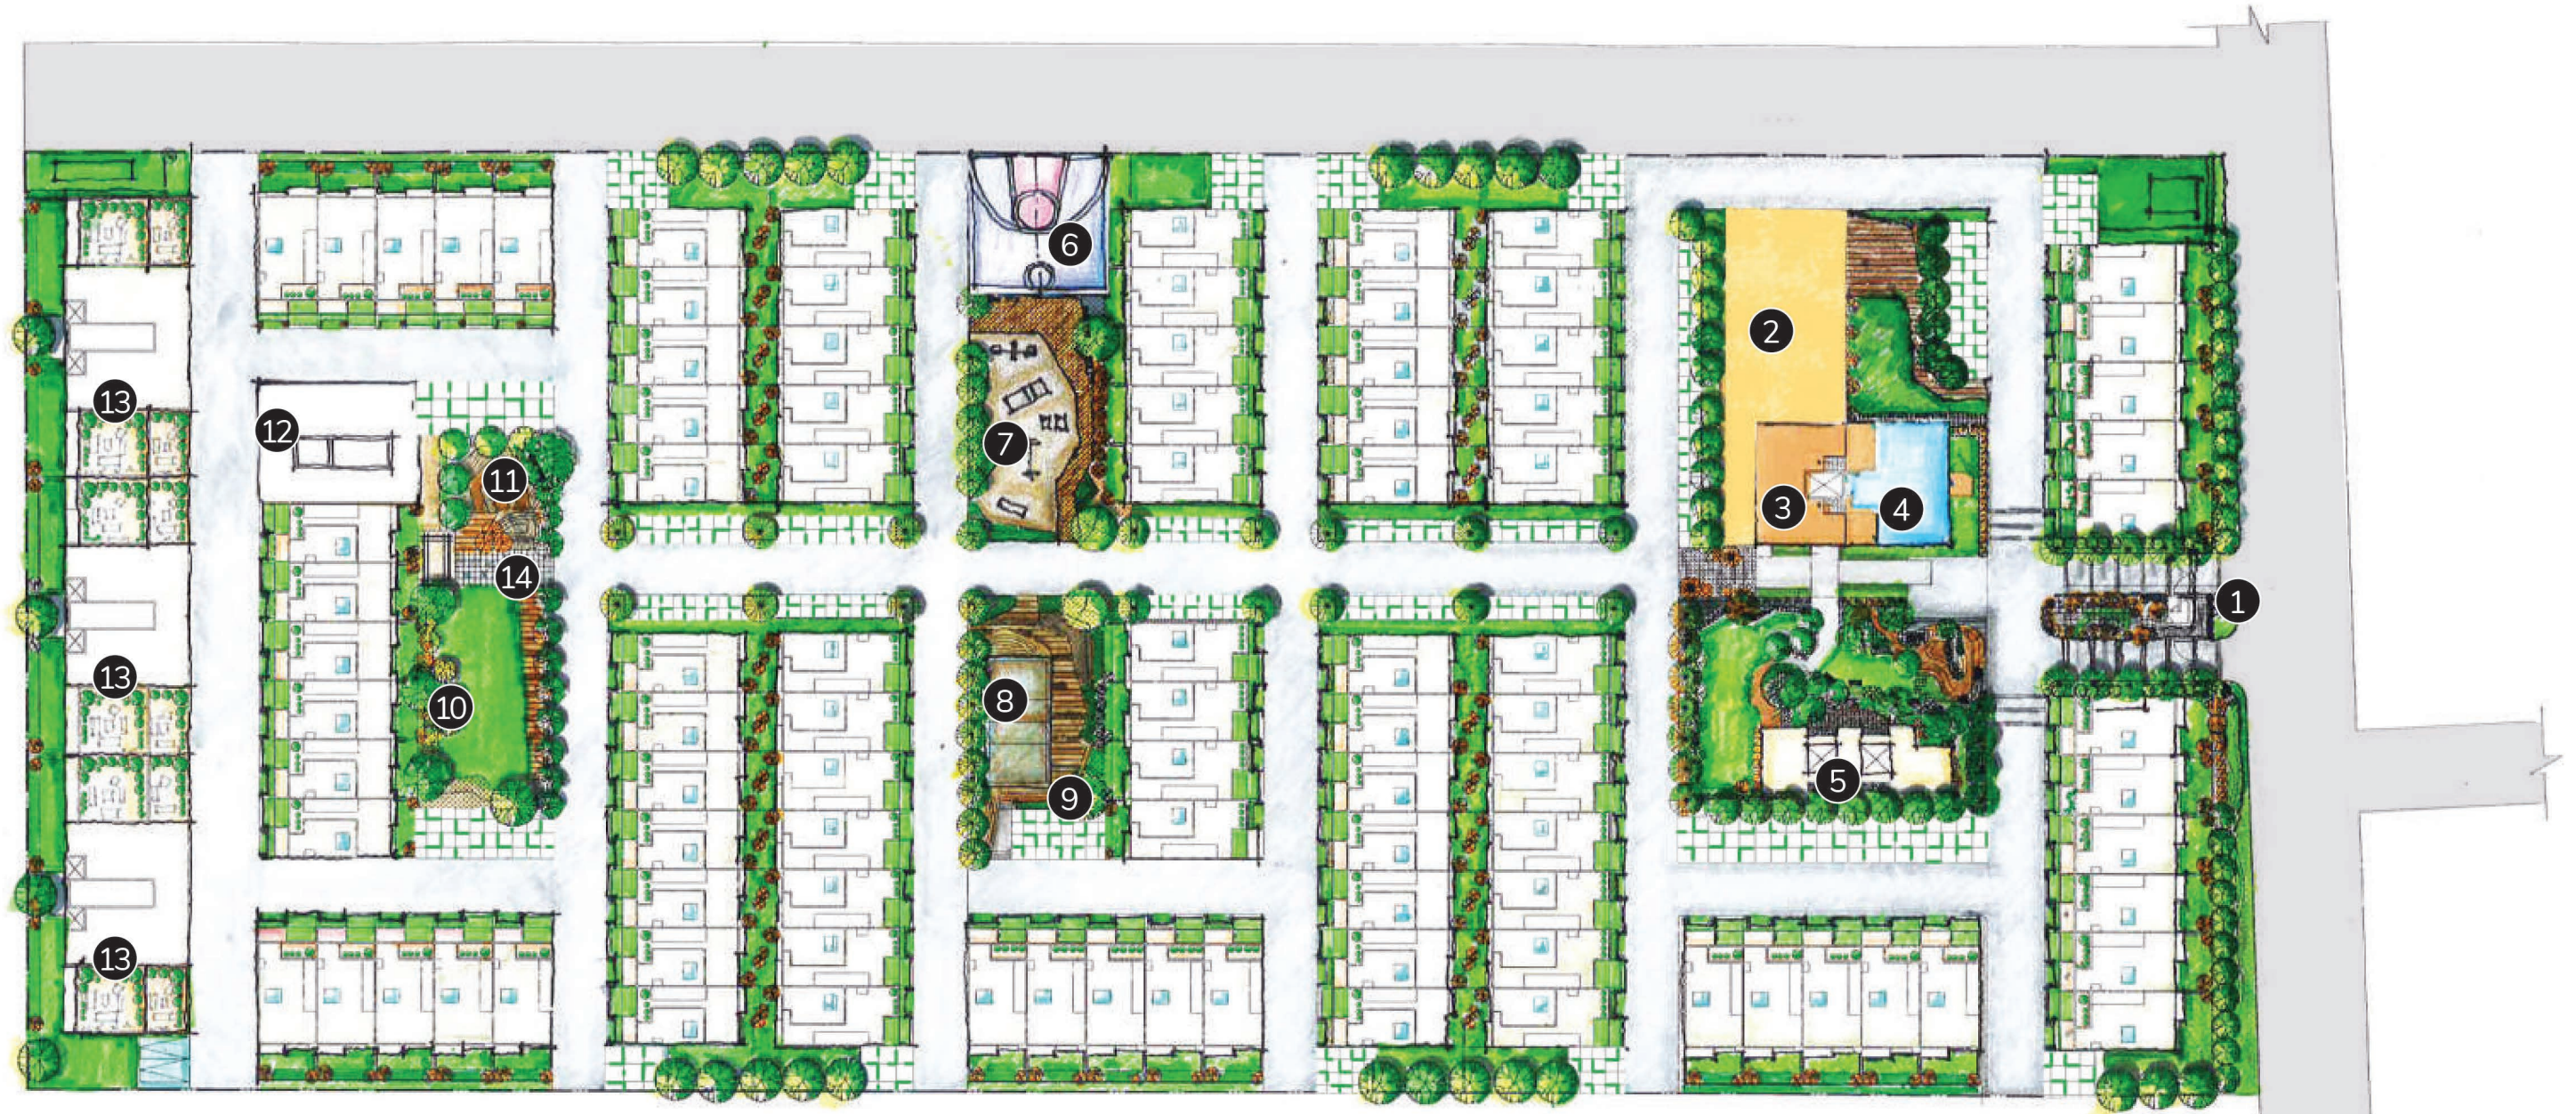

Three-and-four-bedroom row houses that are created for a simpler, yet more luxurious life, with skylights letting in the healing rays of the sun, gardens bursting with soothing greens and a community kitchen where connections can be enhanced by encouraging the simple act of eating together in a beautiful, nurturing space. All this set in 7 cosy acres that are abundant in nature and good energies.

designed TO BE One

Living a life that is close to nature and offers you green views and sunlight patches is a healing and positive experience. Here homes are designed to give you the little joys of nature, and a life that is quietly rich.

Sunlight changes the seasons, colours the blooms and is intrinsic to the earth and all life on it. At Soul & Soil, one of the prime features is a skylight in every home. A simple design detail that instantly connects your home to the world outside, offering natural light and positivity. The windows have also been designed with large openings for higher LUX* and ventilation. All homes have compact internal courtyards. This stack effect keeps the home cool naturally.
