PRODUCT SUPERIORITY

Premium community design

- Casagrand Sereno has been designed to build a community with activity-driven open spaces and open spaces for social interactions
- Overall, about 65% lush greenery remains, as it is designed to be in harmony with the environment
- A lot of open spaces are provided in the community, with playgrounds in the OSR, at the entrance
- Apart from these activities, it also provides a lot of green space for the community, and has seating arrangements to enjoy the evening

Kids friendly community

Spaces and facilities designed for kids include:

- Learning center
- Indoor play area
- Indoor games (TT / Snooker, Foosball)
- Video games room
- Outdoor play area
- Toddlers' pool
- Multipurpose play area

Vaastu compliant

Conscious efforts have been taken during design phase to have most of the units Vaastu compliant, and the following have achieved:

- Maximum units with SW bedrooms
- Minimum units with north facing headboards
- Minimum units with SW entrance
- Minimum units with NE, SW toilets and kitchen

Premium specifications

Casagrand Sereno comes with premium specifications like:

- Jaquar sanitary & CP fittings
- 8-passenger lifts
- Power backup for every individual unit

Wide internal roads

All major roads in Casagrand Sereno are either 7.2 m or wider, which facilitate a comfortable 2-way drive. There are 2 traffic nodes which control and divert traffic for the whole community, providing congestion-free internal roads.

Ventilation

Utmost importance is given to ventilation of all habitable spaces; every internal and external space is well-ventilated, so one can always get fresh air in the spaces

Secured community

- Controlled entry and exit into the community, with security cabins located at the entrance
- Beam sensors along the compound wall which will act as a burglar alarm for any intrusion through these walls

No dead space

- Internal spaces have been designed with zero dead space
- All the external spaces have been well-utilized, with proper allocation of car parks and meter rooms for various purposes

Efficiency of plans

Efficiency of plans has been given main importance during the design phase, and this has helped in keeping common areas to only 19.75% from saleable area to plinth

Interior planning

Interior detailing for each apartment is done to help customer furnish the house as per plans shown in the brochure which includes:

- Defined wardrobe locations for every unit
- TV position for every unit
- Bed location with side tables
- Apt electrical layout

Wardrobe niches

Most bedrooms have been designed to have a wardrobe niche, so that the wardrobe does not waste space in the bedroom which ensures more space for furnishing

Privacy for bedrooms

Maximum units have bedrooms designed in such a way that they are private, and that visitors do not directly look into bedrooms while sitting in the living

No apartment doors face each other

To ensure more privacy and security, units have been designed in such a way that for maximum units, the entrance doors do not face each other

Bedrooms and balconies planning

- All bedrooms and balconies are planned in such a way that they look outside, making sure every bedroom enjoys good views and ventilation
- None of the bedrooms and balconies look into small cutouts or non-ventilated spaces

Well-planned ODU locations

Thoughtfully planned and created spaces for placing ODUs of ACs, so that the area is accessible for service but no ACs will be seen on the building façade, as they will be hidden within the ODU spaces, which can be referred in any plan

Well-lit and well-ventilated corridors

All the corridors are well-lit and well-ventilated from either ends or from intermediate cutouts, so there will be no requirement to light corridors during the day

All balconies are 5 feet in size, which can be furnished and used for enjoying the evenings

The community is well-equipped with recreational activity spaces and amenities. It has 21 amenities to ensure a healthy lifestyle after a tiring day
