In the course of the last four decades, developing projects across Delhi-NCR, we have built strong domain capabilities through expansion of our land bank portfolio while conceptualising and executing projects across different verticals.

Our investments are made with a long-term vision to build a strong asset base with committed capital. With our deep understanding of the vibrant market of New Delhi, we have created land banks in the heart of the capital in prime locations that are both expansive in size and scope - thus, giving TARC a huge competitive advantage. We at TARC are geared up for the next phase of incremental growth, and seek to unlock immense value by creating a bouquet of marquee projects in New Delhi.

LAND HOLDINGS BY TARC LTD.

Life gives us a limited number of opportunities, to redefine who we are and to carve out new possibilities. The ambitious and the enlightened manage to own those defining moments, and set benchmarks that guide and influence all their choices henceforth. Once the limits have been pushed, there's no looking back. What follows is an inexorable march ahead, that brings with it new milestones and satisfaction. It's a path that leads the chosen few to a hallowed ground,

WELCOME TO A LIFE OF
Experiential Living

A wide-angle photograph of the Lotus Temple in Delhi at night. The temple's iconic lotus-shaped architecture is brightly lit with warm, golden-yellow lights, making it stand out against the dark night sky. The petals are large and pointed, creating a symmetrical, flower-like appearance. The base of the temple is a lower, more rectangular structure with some glass windows and doors, also illuminated. In the foreground, there's a dark, flat area, possibly a plaza or lawn, with some small, dark silhouettes of trees or bushes. To the left, a small, distant building with a clock tower is visible. The overall mood is serene and majestic.
